Renovations coming soon...

What changes are coming?

- **New "Take 5" Zone**

We will install laminate floors and two vending machines outside Meeting Rooms A/B to give patrons a spot to relax with refreshments.

- **1st Floor Carpet**

The carpet on the 1st floor is dated and worn. We will install new carpet that will hide stains and wear much better.

- **Tween Area**

We are carving out a defined area for youth in 4th through 6th grades designed as a bridge between children and teens.

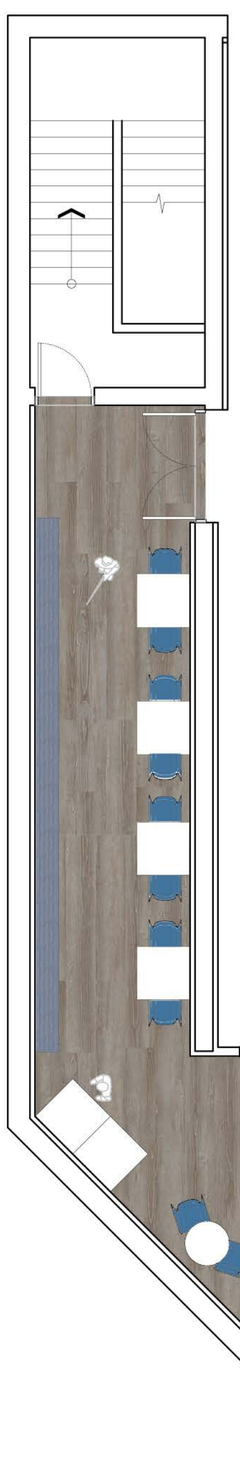

New Carpeting on 1st Floor

Renovation Goals

- **To allow patrons to feel more comfortable**

With a designated "Take 5" zone, patrons can now enjoy refreshments and take a break without leaving the library.

- **New carpeting will improve the appearance and professionalism of the library.**

The new carpeting is darker and more stain resistant.

- **Become More Relevant to Tweens**

The Tween area provides a comfortable and creative space that offers casual seating, an interactive magnet board, a place to read, and connect with others the same age.
